BRIEF DESCRIPTION

- Multi-layer weighing tickets for printing out the weighing data.
- The correct functioning of the printer can only be guaranteed when the following conditions are adhered to:

- Correct paper type and weighing ticket thickness:

Sheet Paper **Paper quality**
(for 3-ply Pfreundt standard weighing tickets)

1	SD-Paper SC-CB white	60 g/m ²
2	SD-Paper CFB yellow	53 g/m ²
3	SD-Paper CF white	130 g/m ²

- Weighing ticket width: 75 mm ± 0,2 mm

NOTE!

Do not use paper which is too thin or too thick. The printers are set to the thickness of the Pfreundt standard weighing tickets.

- Correct bonding of the weighing tickets
